This list is provided with no intended endorsement of particular individuals, their services or business practices. No guarantee is made as to accuracy of information listed.

Arborist certification is a voluntary program of the International Society of Arboriculture. Unrelated to insurance coverage or licensing, certification is earned by successful completion of a comprehensive exam covering the principles and practice of tree care. Certification is valid for three years. ISA maintains a searchable database of certified arborists at www.isa-arbor.com/findArborist/findArborist.aspx.
